

AIRFINANCE GLOBAL

Airline Credit Intelligence

For smarter capital decisions

Together, Ishka and Airfinance Global deliver a unified 360° view of airline credit risk, combining the most comprehensive financial data in the market with expert credit analytics and intelligence.

Whether you're evaluating a new airline, monitoring a portfolio, or structuring a new deal, our two platforms work in unison to help you plan, source, and trade with confidence.

We don't just report the market, we interpret it.

Faster due diligence, stronger portfolio protection and a competitive advantage

Unrivalled coverage, independent perspective and a complete credit view – powered by decades of domain expertise

Airline Credit Profiles

Unparalleled visibility into global airline credit risk through forward-looking intelligence that moves with the market

- Quantify airline credit exposure with the **Vulnerability Matrix**, **Airlines on Watch** alerts, and regular reviews combining flash analysis, traffic trends and expert commentary.
- Identify route and capacity **risk exposure** with competitive network analysis and dynamic fleet data commentary
- **Evaluate country and regional risk impact** including FX, economic and geopolitical pressures
- Benchmark carriers and create custom portfolios with the **Airline Comparison Tool**
- Assess financial strength with the **Airline Scorecard**, covering liquidity, leverage, gearing, fleet age, load factors and EBITDAR margins

Airline Intelligence

The market's most comprehensive financial data giving instant financial clarity across the global airline landscape

- Access full financial data for **325 active airlines**, including **225+ private carriers**, to analyse and review investments
- Financial ratings for **250+** active airlines without a public rating
- Identify trends with **10+ years** of historical financial data
- Airline coverage accounts for approx. **95% of global ASKs**
- **Consistent methodology** enabling side-by-side multi-airline comparison, portfolio financials and KPIs
- **Save hundreds of working hours** spent sourcing, formatting and spreading financials
- **Export data** for your internal use or integrate directly via **APIs**

360° view of risk across the entire aviation finance deal lifecycle

Plan

Build strategy on solid ground. Whether you're shaping a lending strategy, monitoring lessee performance or tracking macroeconomic and geopolitical shifts, our data and analytics give you the visibility to plan with conviction.

Source

Identify the right opportunities before the market moves. Independent credit analysis and instant due diligence reports help you spot viable investment and placement opportunities, evaluate airline RFPs and validate your strategy with speed and certainty.

Trade

When a deal is live, confidence comes from clarity. Our credit intelligence gives you an accurate, independent view of airline financial health at the moment it matters, so you can price risk, structure terms and move decisively without second-guessing your data.

“Airline Credit Profiles delivers insight beyond financial ratios, incorporating management strength, fleet strategy and geopolitical context to assess long-term airline credit risk. I would definitely recommend Airline Credit Profiles.”

Patrick Den Elzen, CEO & Founding Partner, Arena Aviation

“What differentiates Ishka here is not just the numbers, but the accompanying analysis and commentary on what is positive and negative for each airline. That added perspective is very useful.”

Joseph El-Helou, Associate Director, volofin Capital Management

“Airfinance Global’s financial data and analytics covering global airline and lessor financials allows for trend analysis on key financial and fleet considerations that are simply not replicable without thousands of hours of input work.”

Mark Streeter, Managing Director, J.P. Morgan

“We’ve been an active user of Airfinance Global data since our foundation in 2017. Airline Intelligence is a huge time saver as we analyse and review investments”

Ramki Sundaram, CEO, Airborne Capital
