Better results start
with getting

SAVi

As tighter ESG scrutiny and new regulatory pressures come into play, aviation dealmakers need to design and implement comprehensive strategies to navigate the path to net zero.

Ishka SAVi provides the richest, most meaningful aviation finance sustainability intelligence in the market to help meet your goals and stay ahead of competitors.

Access a wealth of unique, proprietary data and analytics via SAVi's:

- Short-form reports and analysis
- Dynamic data dashboards
- Extensive ESG resource library

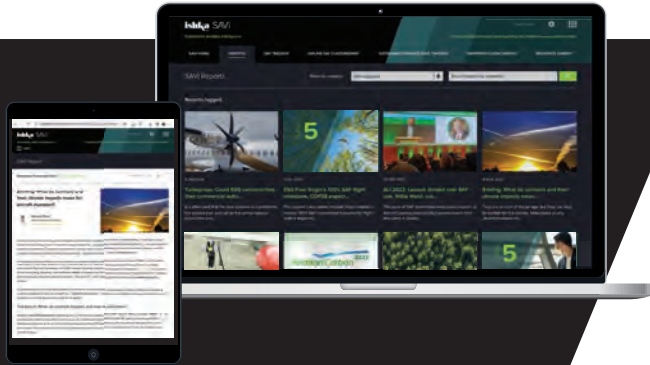

A photograph of a young woman with dark, curly hair, smiling and looking towards the right. She is sitting at a desk with a laptop and a blue mug. The image is partially obscured by a dark green diagonal graphic element.

SAVi Reports

Curating and analysing intelligence in multiple languages, Ishka SAVi monitors legislative developments, industry trends, pioneering investments and transactions across the world.

Through weekly summaries and in-depth data-driven features, our analysis helps inform cost impacts on commercial aviation and aircraft investment, pinpoint the strategic direction of aviation finance firms, and drive your investment decisions.

SAVi Dashboards

SAF TRACKER

The industry's reference SAF (Sustainable Aviation Fuel) offtake and purchase tracker, regularly updated with the latest transactions and offering over 20 data points per deal.

Visualise future SAF capacity allocations by producers, average annual delivery by airline, types of agreements, intended delivery airport, associated production facilities, pathway breakdowns and much more.

Evaluate

Customise ESG data precisely to your analytical needs

SAVi Dashboards

NEW PROPULSION ORDERS

Zero and low tailpipe emissions fixed-wing aircraft are on the verge of becoming a commercial reality, with thousands of clean-sheet products and propulsion retrofits already on order by over one hundred operators and lessors.

Visualise every order and commitment by product category, customer, firm/option breakdown, agreement type, potential feedstock aircraft, and more.

SAF LEADERBOARD

Go beyond headlines to understand which airlines are truly leading the charge towards introducing SAF into their operations.

Powered by SAVi's SAF Tracker, the Airline SAF Leaderboard plots SAF offtake delivery commitments against operators' fuel use to show how close (or how far) airlines are in their journey to 2030 SAF use targets.

Improve

The indispensable tool that drives financial success and a greener future

SAVi Dashboards

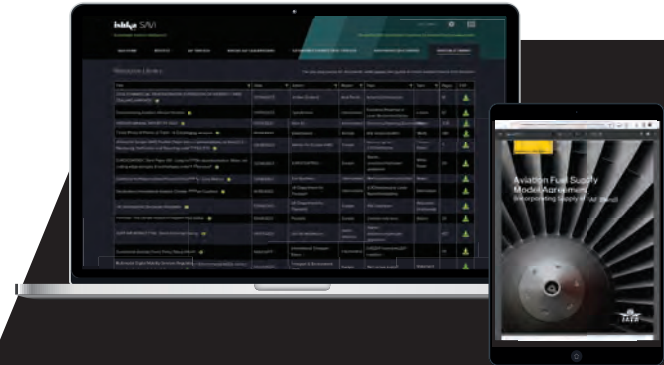

SUSTAINABLE FINANCE DEAL TRACKER

Navigate KPI and SPT evolution in aviation with the only sustainable finance database in aviation containing every public transaction since 2018.

The most comprehensive database of sustainable finance transactions involving airlines, lessors, and aircraft. Access publicly available details of every deal to date in one place, from KPIs and SPTs to step-ups and transaction parties.

SAVi Resource Library

We do the hard work for you, sourcing and collating the essential ESG and sustainability documents and whitepapers that inform aviation strategy, including regulation, academic research, policy briefings, and much more.

Updated weekly, Ishka SAVi's extensive resource library saves you time by providing a one-stop knowledge hub for all the research and vital information you need.

In an evolving world, sustainability data is becoming indispensable in the aviation industry

Ishka SAVi shows you how the market is moving and allows you to customise real world intelligence to inform and shape your ESG and sustainability strategies.

Contact our team today for your **free** demo and discover unrivalled data and analysis that drives both financial success and a greener future.
